Montecarlo quantities for electrons

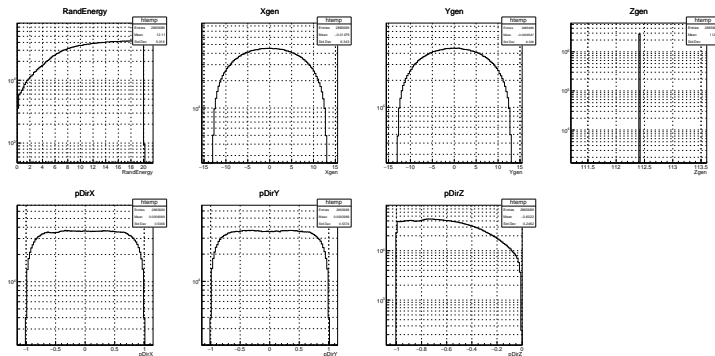

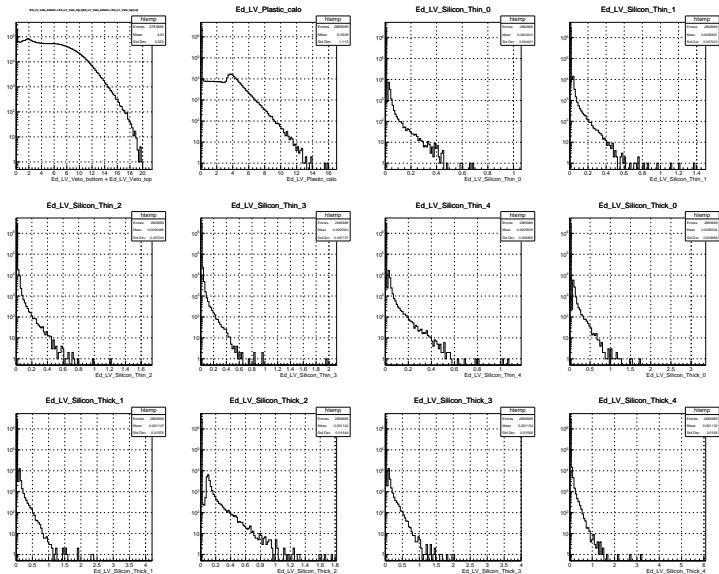

Figure: MC quantities

Energies distribution for electrons

Angles distribution accepted for electrons

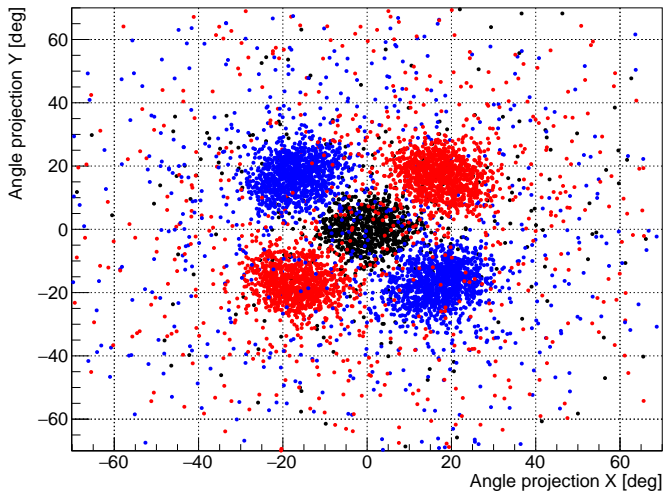

Figure: Angles distribution

Angles distribution accepted for electrons

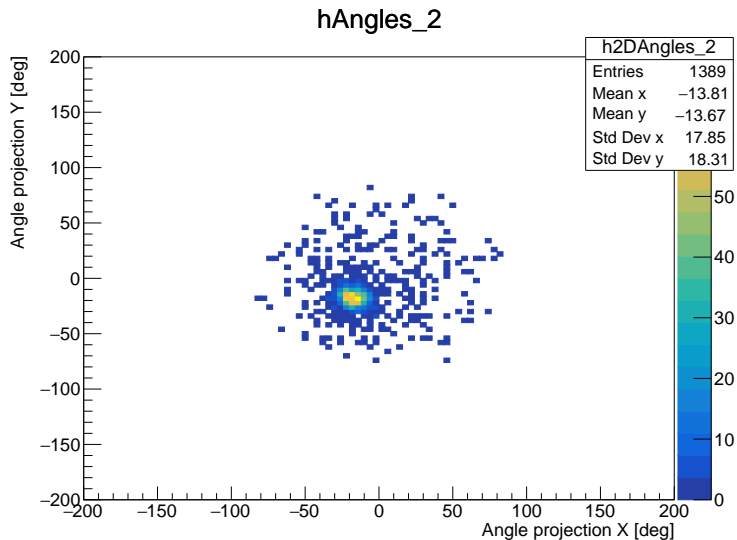

Figure: Angles distribution

Angles distribution accepted for electrons

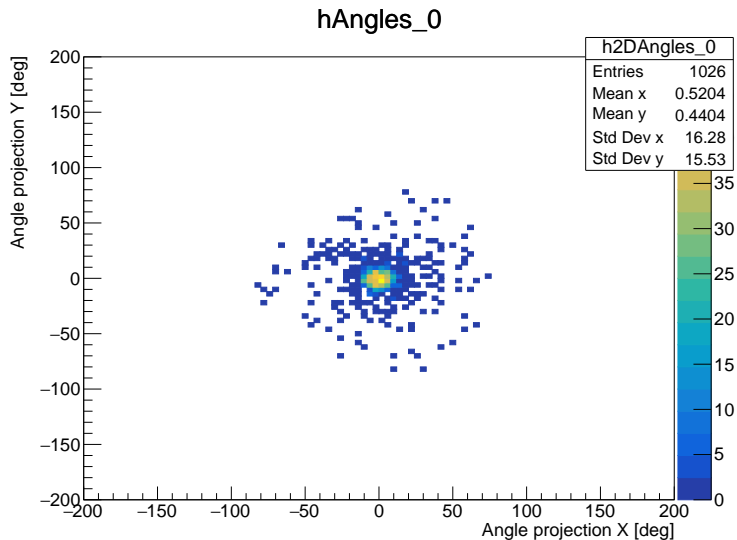

Figure: Angles distribution

Angles distribution accepted for electrons

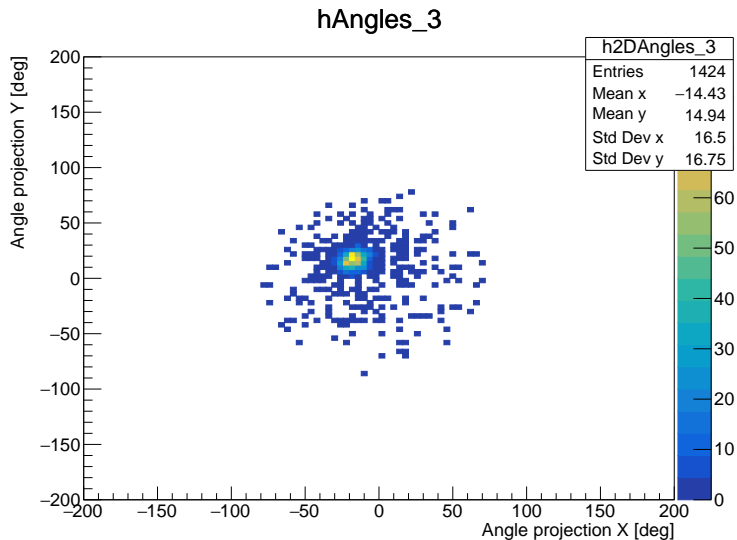

Figure: Angles distribution

Angles distribution accepted for electrons

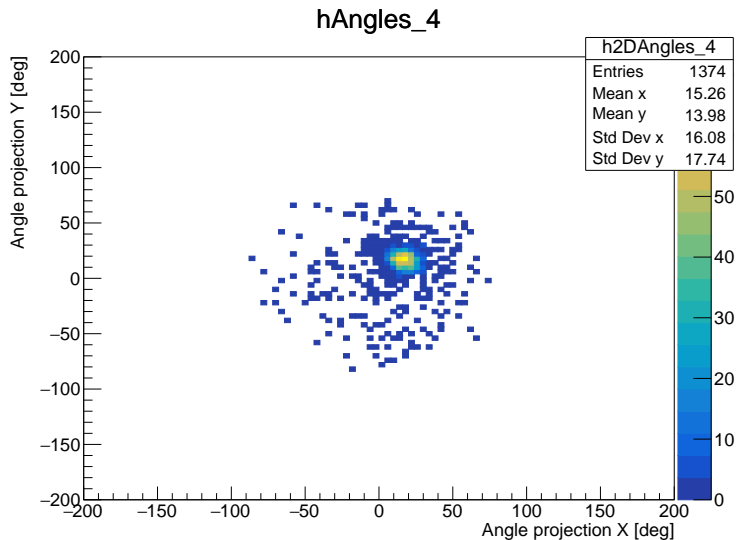

Figure: Angles distribution

Angles distribution accepted for electrons

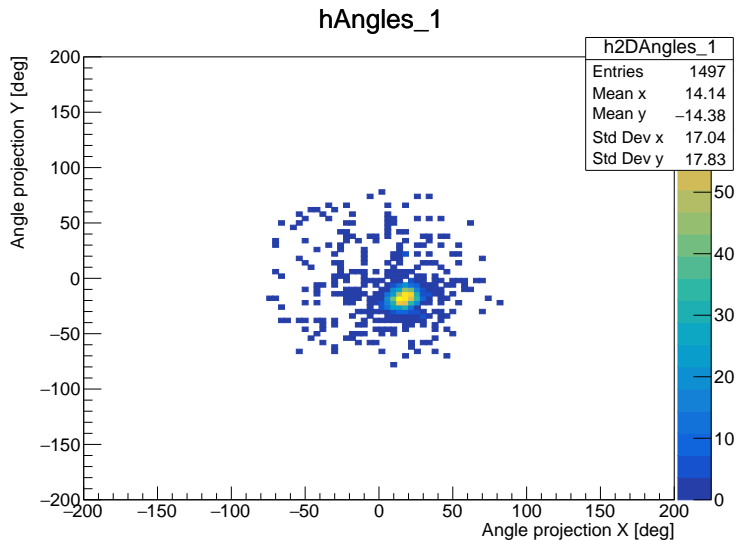

Figure: Angles distribution

Generation Position distribution accepted for electrons

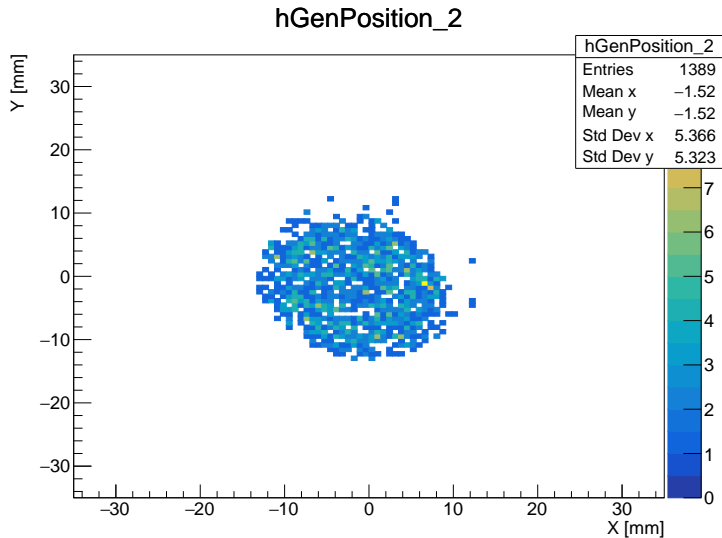

Figure: Generation Position

Generation Position distribution accepted for electrons

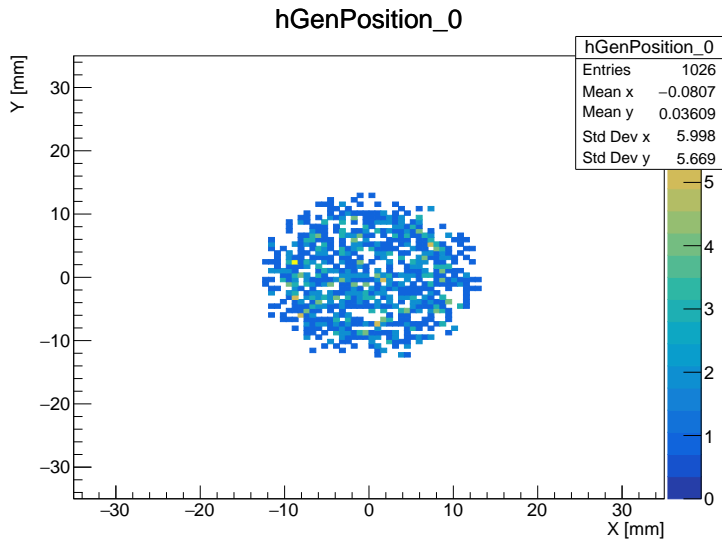

Figure: Generation Position

Generation Position distribution accepted for electrons

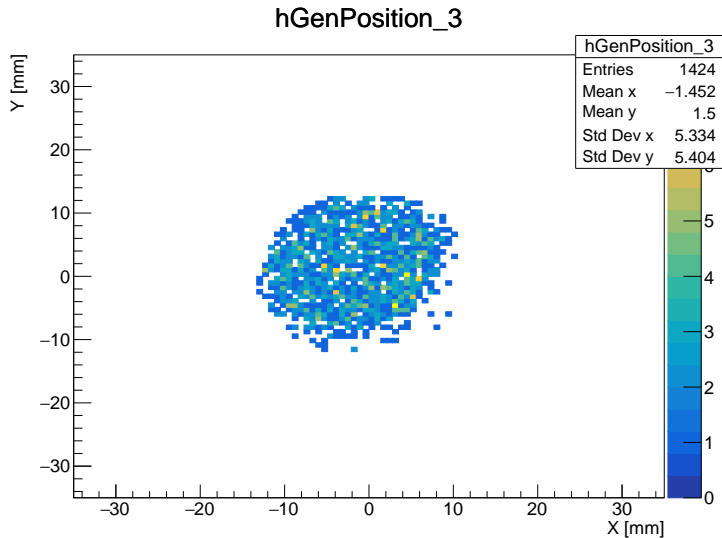

Figure: Generation Position

Generation Position distribution accepted for electrons

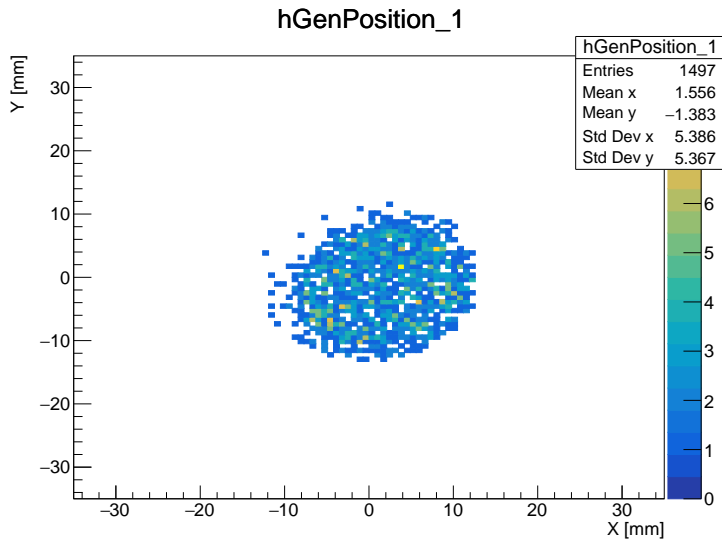

Figure: Generation Position

Generation Position distribution accepted for electrons

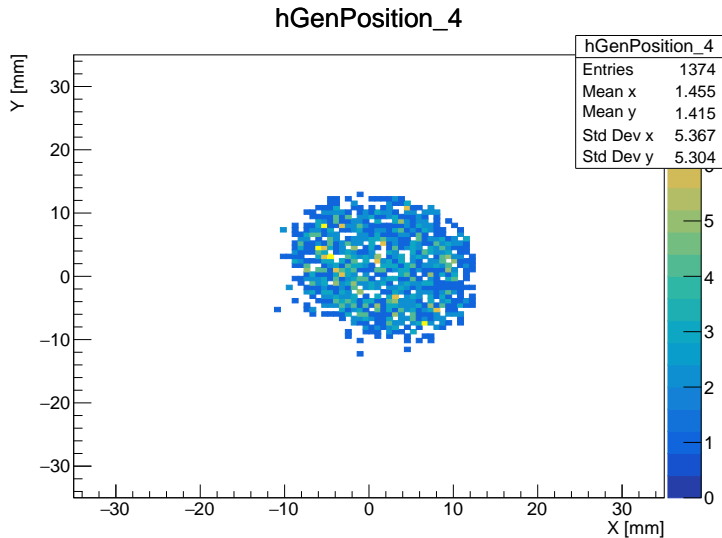

Figure: Generation Position

Geometric factors for electrons

Geometric factors for electrons

Montecarlo quantities for protons

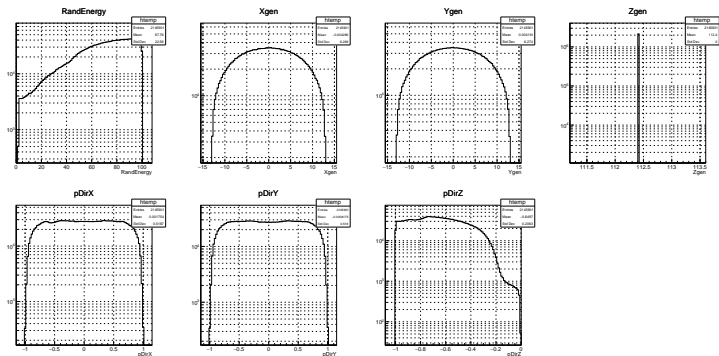

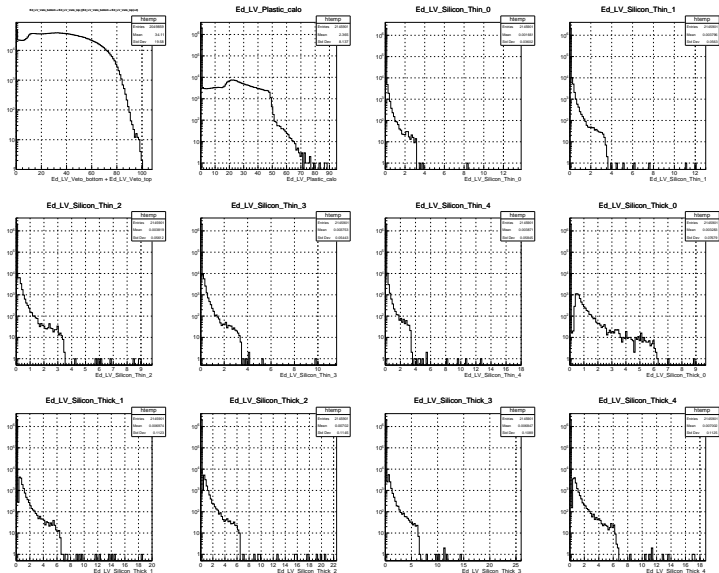

Figure: MC quantities

Energies distribution for protons

Angles distribution accepted for protons

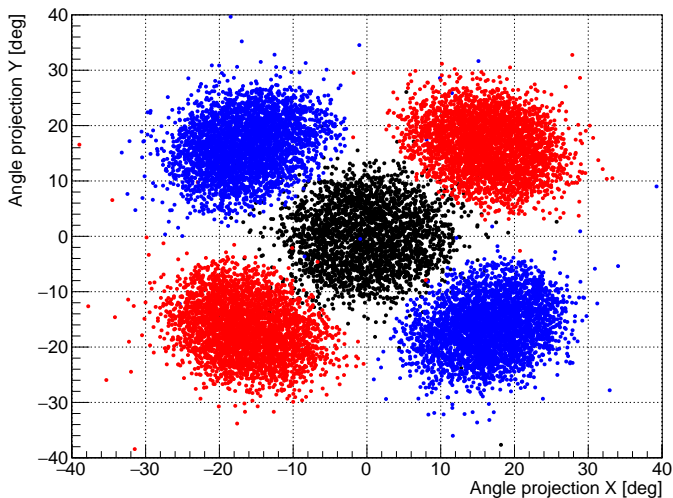

Figure: Angles distribution

Angles distribution accepted for protons

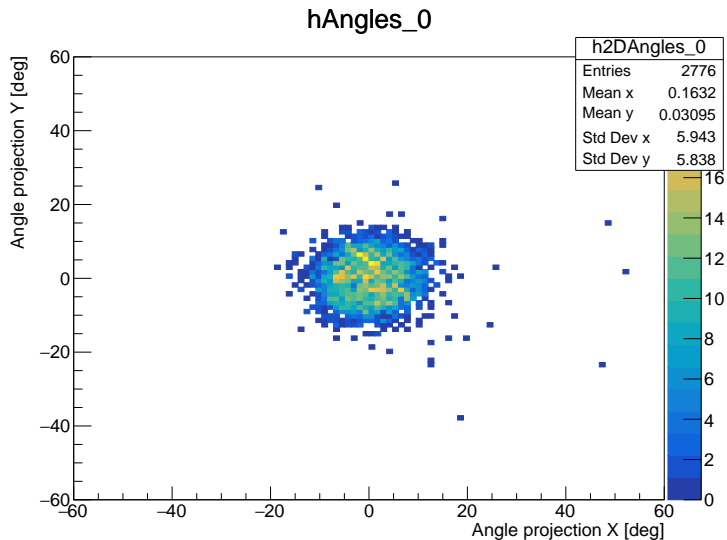

Figure: Angles distribution

Angles distribution accepted for protons

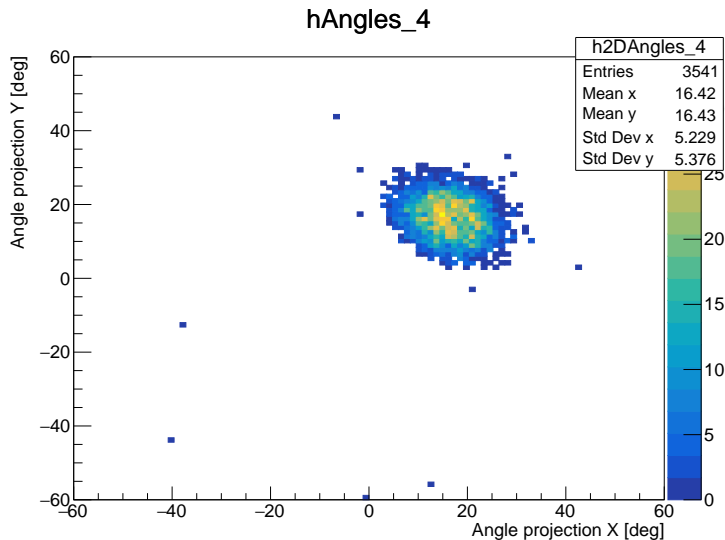

Figure: Angles distribution

Angles distribution accepted for protons

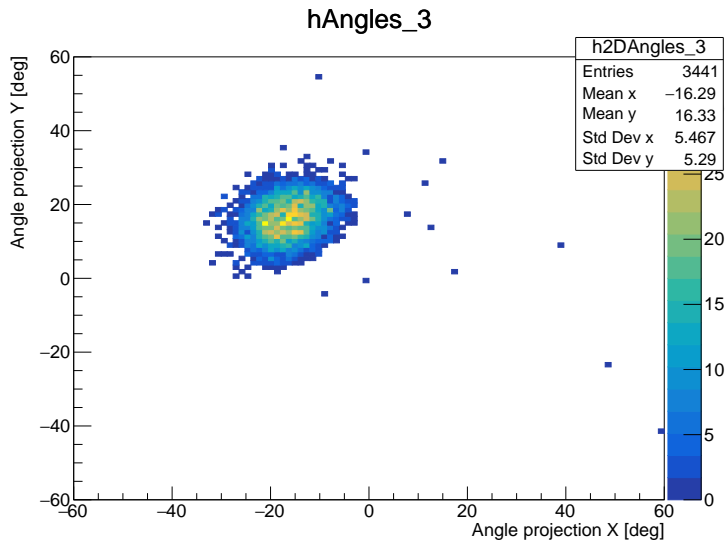

Figure: Angles distribution

Angles distribution accepted for protons

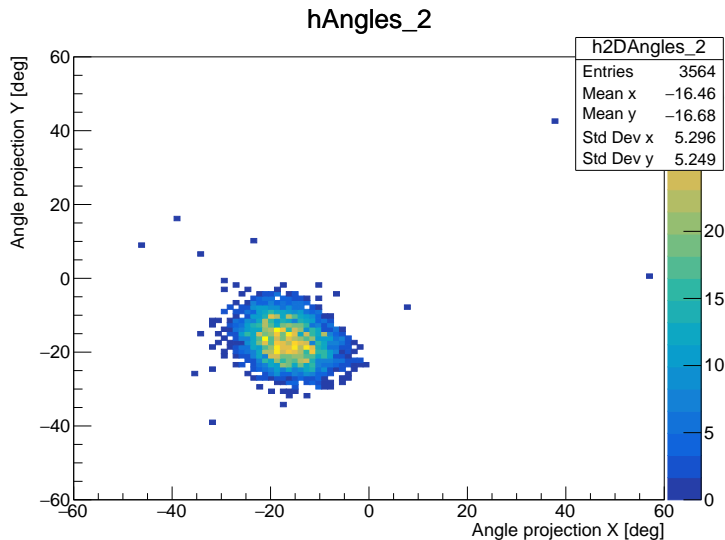

Figure: Angles distribution

Angles distribution accepted for protons

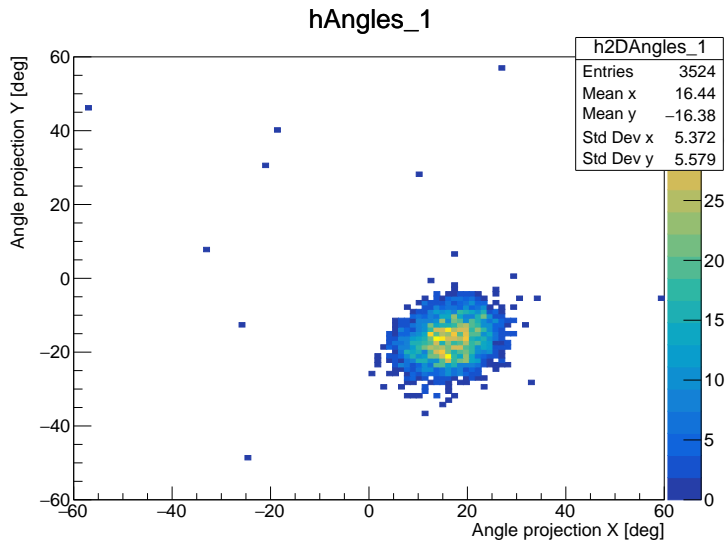

Figure: Angles distribution

Generation Position distribution accepted for protons

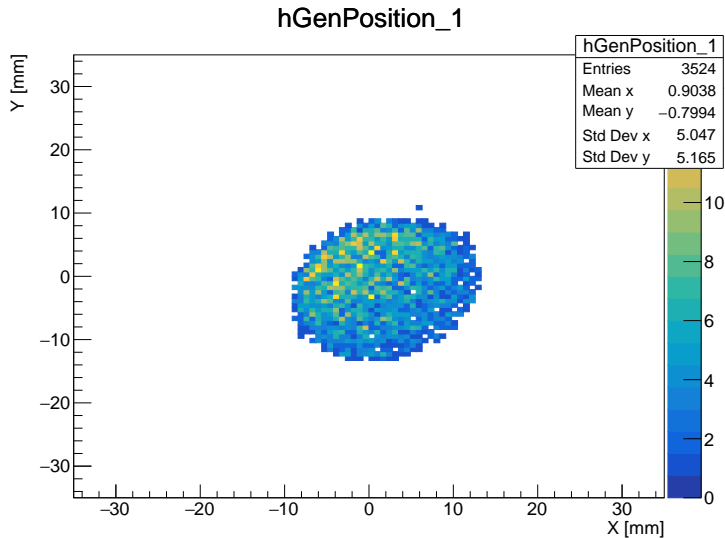

Figure: Generation Position

Generation Position distribution accepted for protons

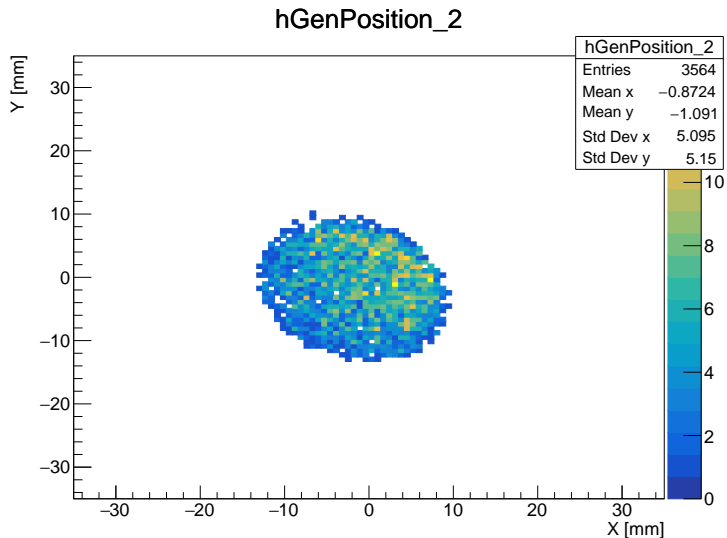

Figure: Generation Position

Generation Position distribution accepted for protons

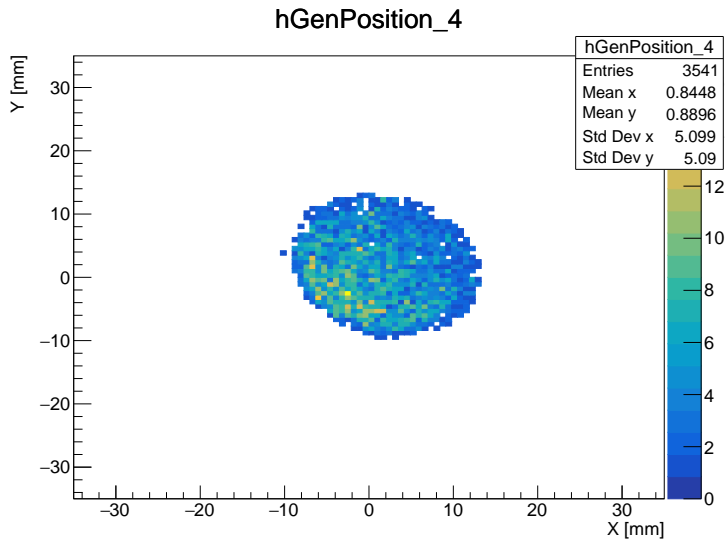

Figure: Generation Position

Generation Position distribution accepted for protons

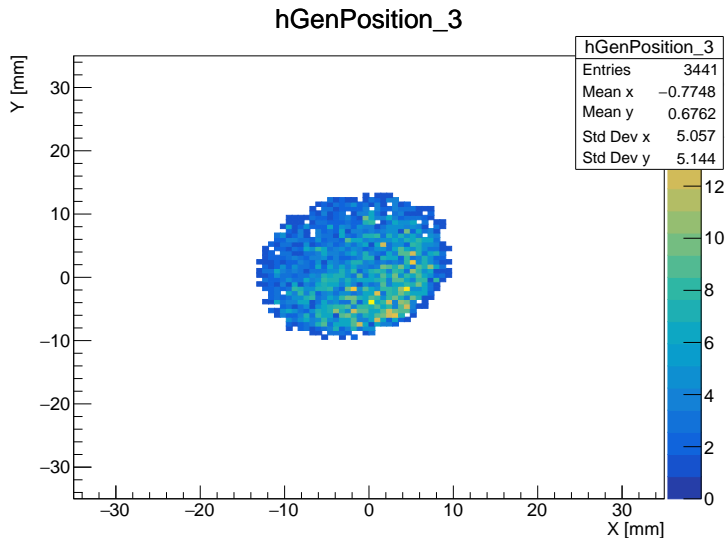

Figure: Generation Position

Generation Position distribution accepted for protons

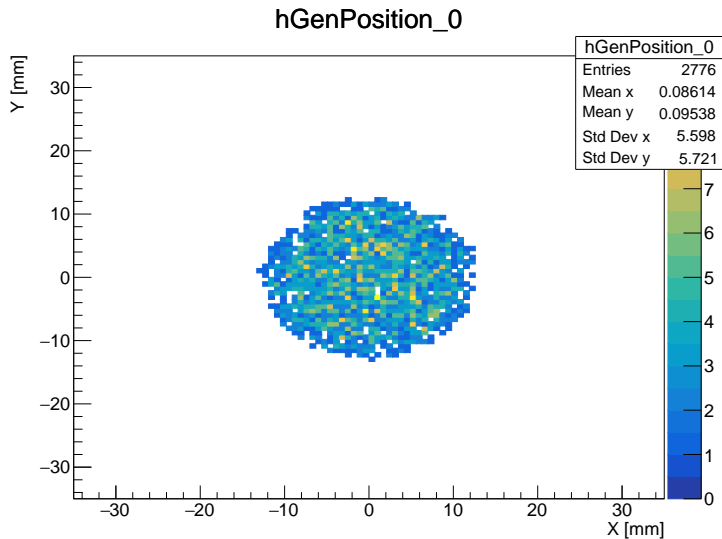

Figure: Generation Position

Geometric factors for protons

Geometric factors for protons

Montecarlo quantities for alphas

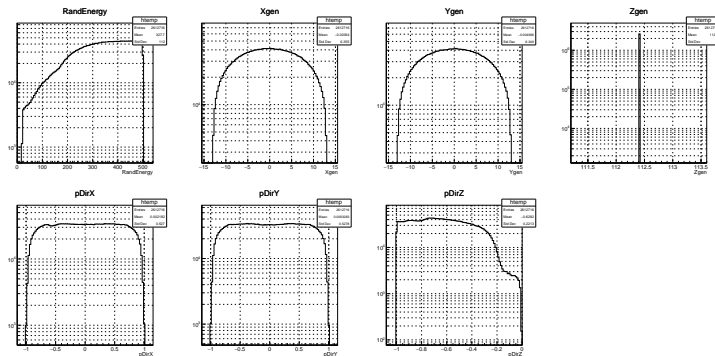

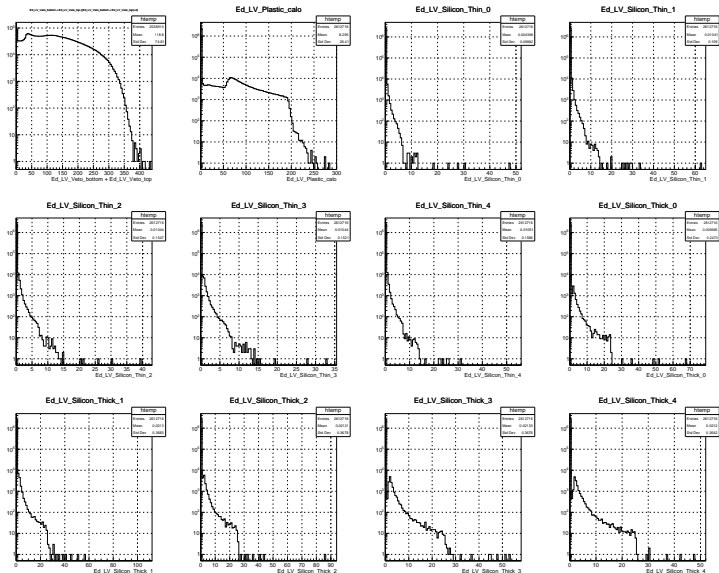

Figure: MC quantities

Energies distribution for alphas

Angles distribution accepted for alphas

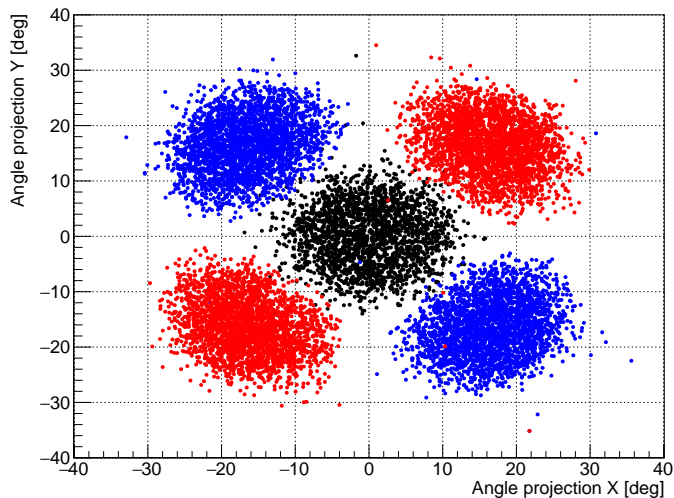

Figure: Angles distribution

Angles distribution accepted for alphas

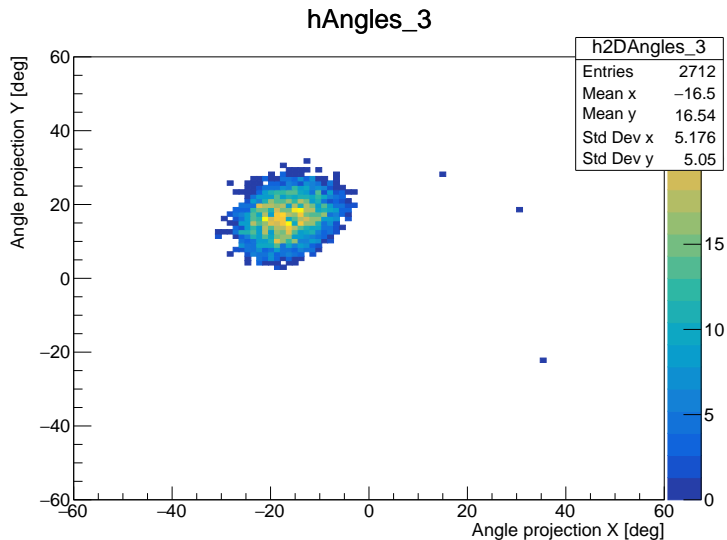

Figure: Angles distribution

Angles distribution accepted for alphas

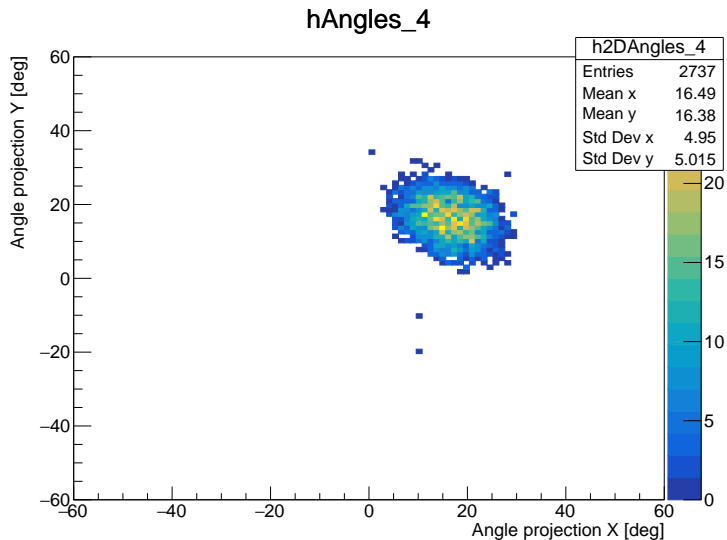

Figure: Angles distribution

Angles distribution accepted for alphas

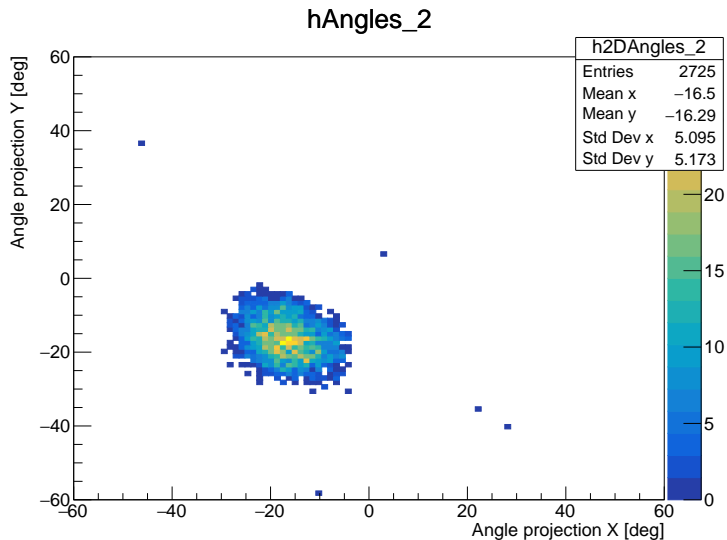

Figure: Angles distribution

Angles distribution accepted for alphas

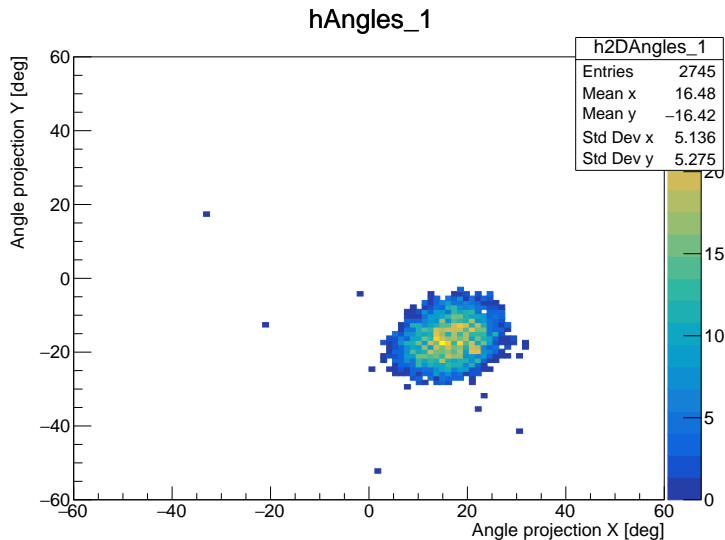

Figure: Angles distribution

Angles distribution accepted for alphas

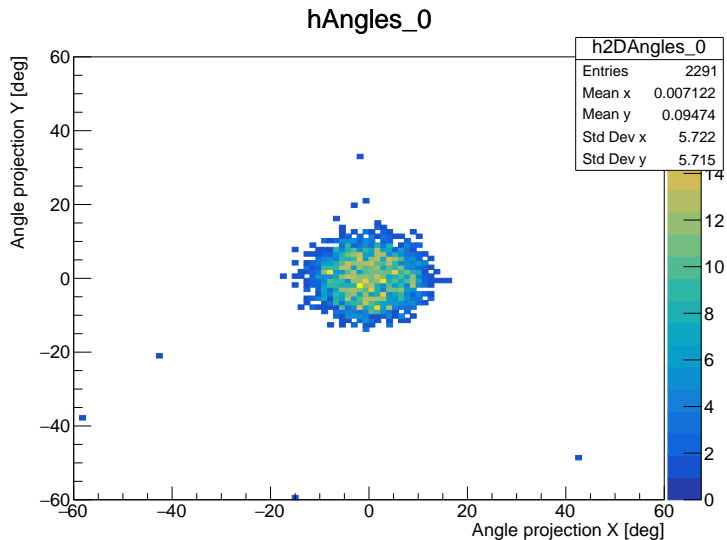

Figure: Angles distribution

Generation Position distribution accepted for alphas

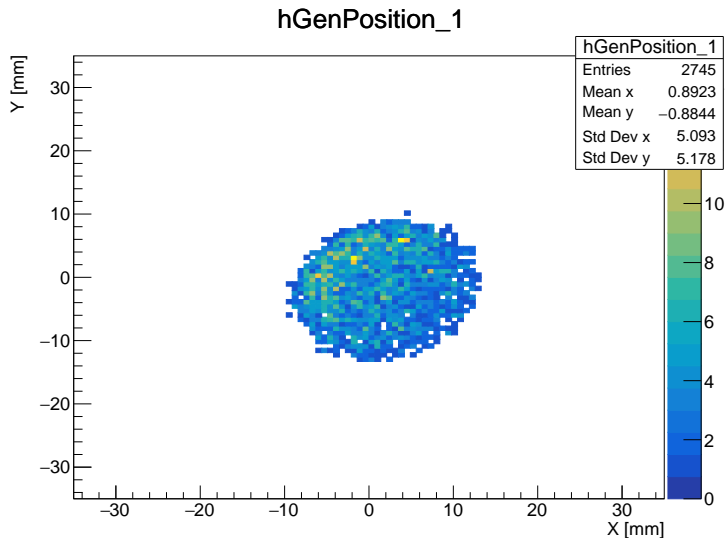

Figure: Generation Position

Generation Position distribution accepted for alphas

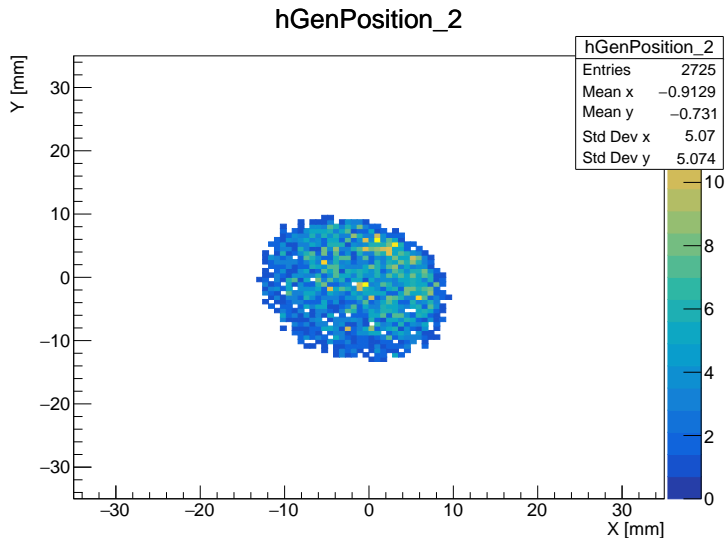

Figure: Generation Position

Generation Position distribution accepted for alphas

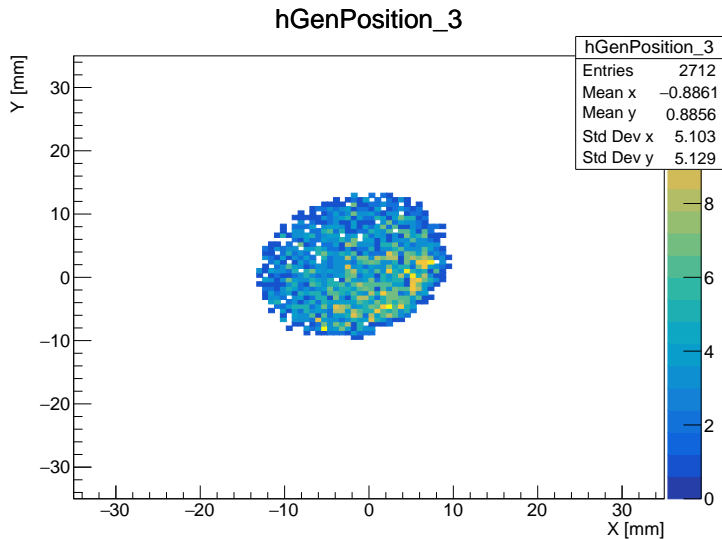

Figure: Generation Position

Generation Position distribution accepted for alphas

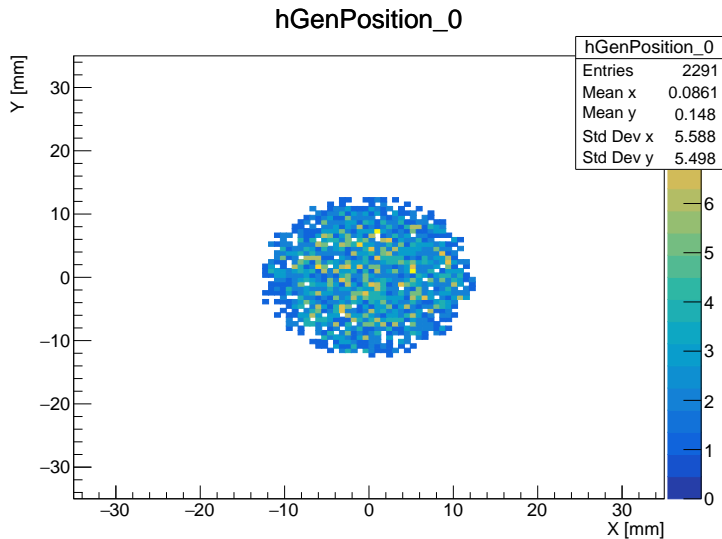

Figure: Generation Position

Generation Position distribution accepted for alphas

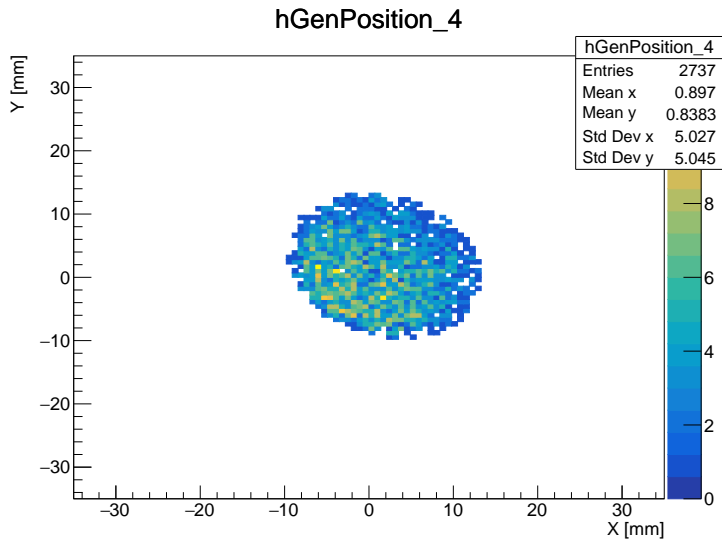

Figure: Generation Position

Geometric factors for alphas

Geometric factors for alphas

Geometric factors for all particles
